Software Development Engineer - 2

Passionate Full Stack Developer | Specializing in Crafting Engaging User Experiences with Cutting-Edge Technologies and Innovative Solutions

EDUCATION

M-Tech in Artificial Intelligence & Data Science
Indian Institute Of Technology, Patna — Hybrid • 01/2026 - 01/2028

Bachelor Of Engineering (CSE)
SDM Institute Of Technology • GPA: 8.15 — Ujire • 08/2018 - 08/2022

SKILLS

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS, Material UI, Ant Design, Redux Toolkit, Micro Frontend, Mantine

Backend: Node.js, Express.js, Django, REST API Development, Payload CMS, Authentication & Authorization

Database: MongoDB, PostgreSQL, MySQL, Redis

Architecture & Concepts: Microservices, MCP, REST APIs, Single Sign-On (SSO), Scalable System Design, Clean Architecture, Cron Jobs & Background Processing, LLM Integration & Prompt Engineering

Testing: Jest, React Testing Library

Tools & Platforms: GitHub, Git, Docker, Postman, VS Code, CI/CD (GitHub Actions), Linux

WORK EXPERIENCE

MediaTek — **12/2025 - Present**
Full Stack developer

- Working on the **3D IC platform**, contributing to development, integration, and continuous enhancements
- Building and maintaining backend services using **Payload CMS** and Express.js
- Implementing scheduled tasks and background jobs using cron for automation and system reliability
- Developing **MCP-based** AI integrations using **RAG** and **LangChain** to enable LLMs to securely leverage proprietary data
- Developing modern, responsive UI components using Mantine
- Integrating LLM-based features and improving model response quality through **prompt tuning** and optimization
- Collaborating with cross-functional teams to deliver scalable, high-performance, and maintainable software solutions

Cognitive Clouds — **05/2022 - 11/2025**
Software Developer

- Integrated multiple applications into a unified platform, building administrative controls to effectively manage and monitor all connected systems.
- Worked closely with cross-functional teams to coordinate and streamline the integration of various applications into a central ecosystem.

- Contributed to the design and development of new features while resolving technical and functional issues in existing learning and coaching modules.
- Currently focused on improving application scalability and enhancing performance to ensure faster load times and better user experience.

Associate Software Developer

- Worked on a centralized platform project for a client, focusing on integration and feature enhancements.
- Implemented Single Sign-On (SSO) to streamline user authentication across applications.
- Contributed to learning and coaching modules in an internal project, enhancing functionality and user experience.

Associate Trainee

- Completed multiple tasks on basic app development, including testing the application.
- Successfully passed the tests conducted by Builder.ai.

CERTIFICATIONS

Gold badge Certified -- React developer
Builder.ai

Certified as the second-best in a Hackathon
SDM

JavaScript level-1 Certified
Cambridge Certification Authority(CCA)

Certified on Soft Skills and IT foundation Skills
TCS ION

Certified as an Out Standing performer in Machine Learning
Verzeo.com

PROJECTS

Algotrade
08/2026 - Present

Developing Algotrading application where users can automate trading using our exclusive logic.
